

# Negotiated Rate Compare Chart

In some states, carrier negotiated rates (the amount each carrier will reimburse a provider for covered services) may be comparable. If more than one carrier is listed below for your state, it means the carriers listed are comparable with one another in terms of negotiated rates.

This chart reflects a comparison of the negotiated rates for the carriers' broad networks (Aetna Choice POS II, Anthem Blue Card PPO, and UnitedHealthcare Choice Plus). It is not meant to reflect the rates of Aetna or UnitedHealthcare's narrow networks (Aetna's Premier Care Network or UnitedHealthcare's Core Network).

Note: Rates for Kaiser are not included in this comparison, even in states where Kaiser is available.
